01 — THE SEXTET

In brief

Three horns, three vocalists and a powerhouse rhythm section bring the spirit of Louis Armstrong's All Stars vividly to the stage. Six musicians, beloved songs, sparkling solos and the generous humour of a true jazz show.

FULL PRESENTATION

Louis Armstrong's All Stars were unforgettable not merely for the repertoire but for the personalities on stage. Armstrong's Ambassadors revive that special chemistry: soloists trading ideas, songs that invite the audience in and a shared delight in making music. Trumpet, clarinet, trombone, piano, bass and drums create the full six-piece sound, with three of the musicians also singing.

From Mack the Knife and La Vie en Rose to What a Wonderful World, familiar melodies become opportunities for wit, warmth and spontaneous invention. Rather than reproducing Armstrong's solos note for note, the band celebrates his generosity as an entertainer. A complete concert-show for theatres, festivals and special events.
